Coleman, Alberta, Thursday, November 5, 1925

Price Per Copy, Five Cents

Community Concert for Swimming Pool Funds

The Coleman branch of the Woman's Institute at their regular monthly meeting last week decided to sponsor a "Community Concert" to be held in the Grand Theatre on Wednesday, December 2nd.

Proceeds from this concert will be devoted to the worthy object of securing for Coleman a swimming pool. The funds already on hand for this purpose amount to nearly three thousand dollars and as the estimated cost of a pool is in the neighborhood of five thousand dollars, it will be readily seen that considerable money must yet be raised before this splendid project is definitely assured.

However, with the support of the Carnival Committee; the Woman's Institute and other local organizations, there is very little doubt but what the balance needed will be found. Help the swimming pool fund by patronizing the concert on Wednesday, December 2nd.

Same Old Gang in Control of C.N.P.H.L.

"The question of possible material for a senior team for the coming season was given consideration. The consensus of opinion was that local district teams should be made up of local material, and the practice of importing players, such as adopted by Coleman the past two seasons, should be discouraged."

The above paragraph taken from the report of the annual meeting of the Blairmore hockey club which appeared in last week's issue of the Blairmore paper, is indeed interesting to Coleman hockey fans. It would have been far more interesting and enlightening if the Blairmore hockey club officials had mentioned the town which started the practice of importing players, and also if they had said all the towns in the Crow League had been guilty of this supposed sin, instead of just singling out Coleman.

It is quite apparent that the old Blairmore-Bellevue aggregation which seems to control the Crow Hockey League are up to their old tricks again this season, notwithstanding the fiasco they made of the league last year.

Local Contractor Has Concrete Work About Ready

J. S. D'Appolonia, who has contracted for erecting the foundation for the new steel tipple shortly to be constructed for the International Coal & Coke Company in Coleman, is, despite unfavorable weather conditions, making good headway with his work, and barring unlooked for delays, will have the work completed about the middle of the month.

The steel is expected to arrive early in December and coal will likely be going over the new washer and tipple by March at the latest.

Mr. D'Appolonia is also engaged in building concrete foundations for large improvements under way at the McMillan Creek Coal & Coke Company's plant in West Coleman, and expects to have this work ready for the steel at the end of the present week.

Pioneer Dies

Sh. W. Young of Lethbridge, one of the pioneers of Alberta, died suddenly at his home in Lethbridge the past week. Sheriff Young came to Alberta in the early '80's, and was for some time driver of a stage between Calgary and Edmonton.

Pythian Sisters Ball Most Enjoyable Affair

The 9th annual masquerade ball held under the auspices of Progressive Temple No. 3, Pythian Sisters in the Coleman Opera House last Friday evening, was largely attended and greatly enjoyed by Coleman patrons and many out of town visitors. The floor and music were excellent as was also the refreshments at midnight.

Many handsome costumes were worn and those judging had some difficulty in arriving at the following decision:—Best representative lady, Miss Bentley; best representative gentleman, Mr. John Petronek; best dressed lady, Miss E. Tinney; best dressed gentleman, Mr. J. F. Lotz; best comic lady, Mrs. Dave Sande; best comic gentleman, Mr. S. Doane.

Death Removes Young Wife and Mother From Local Home

Coleman residents were shocked to hear on Thursday morning of the sudden and unexpected passing to the great Beyond of Florence, 27 years, beloved wife of Mr. Percy Locke, Fifth street, Coleman.

It was known to the immediate members of the deceased lady's family that she had for some time been suffering from heart trouble, it was not thought that her condition was really serious, and her untimely removal was a severe blow to all.

The deceased was highly regarded by all who knew her, and besides a sorrowing husband and young daughter she leaves her parents, Mr. and Mrs. John Hopkins, one sister, Mrs. Walter Nelson, two brothers, Mr. Jack and William Hopkins, all of Coleman, to mourn their loss.

Funeral services will be held in St. Alban's church on Sunday at 3 p.m., conducted by the Rev. H. L. Nobbs, and interment taking place in the local cemetery.

Minerva Chapter, O. E. S. Honored by Visit From Chief

Mrs. Beauchier, W. G. M., of the Alberta branch of the O. E. S., was the honored guest of Minerva Chapter, Coleman, on Friday of last week. Many from outside lodges gathered to greet the distinguished visitor.

During the afternoon a school of instruction was held which was largely attended. In the evening Mrs. Beauchier gave an inspiring address to the members of the order, and was the recipient of a beautiful piece of cut glass from the officers and members of Minerva Chapter. A banquet served in the Grand Union Hotel was another pleasant evening in honor of the Worthy Grand Matron's visit to Coleman.

Thanksgiving Services at United Church

Thanksgiving Services are to be held in the United Church on Sunday at 11 a.m. and 7 p.m.

The morning service will have as a special feature, singing by the little folks, recitations and readings. Thanksgiving! What it means for children!

The fathers and mothers and big folks are specially invited. "Our heritage and our task" will be the theme in the evening. Special and suitable music by the choir.

LOCAL, PERSONAL AND GENERAL NEWS

Canvassers who have been securing the names of all children in Coleman up to the age of 12 years, in order that the local Elks may play Santa Claus to them this Christmas, have over 900 names on their list. Even this huge total will likely be increased before the big Christmas Tree and Santa is ready for the youngsters.

The result of the Dominion election is almost as close as that Scotch race story which "Speed" Wilde delights in telling.

In the weekend whist drive held by the Rebekah Lodge Mrs. S. Hartfield secured 1st prize and Mrs. G. Hope the consolation, while Mr. W. Vincent and R. Vincent were winners of the gentlemen's prizes. There was a good turnout and all had a pleasant evening.

Keep Saturday, December 12th in mind, the date of the big bazaar in the I.O.O.F. hall under the auspices of the local Rebekah Lodge.

The following teachers of the local school staff left Wednesday evening to attend the teachers convention of Macleod, Lethbridge and Foremost inspectortates which is in session at Lethbridge on Thursday and Friday of this week: Miss A. Youill, Miss M. MacKinnon, Miss E. Hayson, Miss M. Duploc, Miss C. Allen and Miss E. Dunlop.

Counterfeit 25¢ pieces are in circulation in Blairmore and Coleman and the public is warned to be on the lookout for these spurious coins.

Monday of next week is Thanksgiving Day and a statutory holiday.

Final returns of the voting in the Macleod constituency are: Coote, Progressive 4028; Herron, Conservative 3429; Milnes, Liberal 1563.

Rev. D. K. Allan left Monday evening for Calgary to attend a conference of the Alberta Division of the United Church.

The Women's Auxiliary of St. Alban's church met on Thursday last and made a presentation to Mrs. Jack Johnson who is leaving for the Coast.

ACTING UPON THE ADVICE of his Prime Minister, His Excellency the Governor-General has by formal announcement declared that Monday next, November 9, shall be observed throughout the Dominion of Canada as a day of Thanksgiving to Almighty God for the blessing of Peace after the Great War, assured to us on November 11, 1918, and also for the blessing of year's harvest.

Either of these quite inestimable benefits would have furnished abundant excuse for dropping all business, not absolutely necessary to life or health, and for devoting a whole day to proving the nation's thankfulness to its God.

It is, indeed, necessary, in this bustling, over-practical age, to take time to acknowledge fittingly the beneficence of the spiritual power beyond ourselves and our world, that touches and makes instinct with life and power, our otherwise futile efforts to produce the food we need, and the peace without which enjoyment of them is impossible.

Wanting this sense of the spiritual, man is but little better than other animals. It is a sense requiring development if it is to continue its existence. And development comes, through expression—the expression of gratitude and of thankfulness for our dependence upon a grand spiritual Being.

A bounteous harvest, more than sufficient for our country's needs, overflowing into national enrichment, and peace, the blessings of which bitter experience has taught us, are ours to enjoy.

Surely ours to be thankful for also, remembering whence they came, our helplessness to produce them by ourselves!

Who will begrudge time to say "Thank You" to Almighty God on the day—next Monday—set apart by authority for that purpose?

W.I. October Meeting

Augustine Janotak Wins the Grade VIII Medal — To Stage Community Concert on December 2nd.

The October meeting of the Women's Institute was held at the home of Mrs. W. Johnston on Tuesday the 27th. There were 14 members and 2 visitors present.

An interesting and instructive paper on "Bulbs" was given by Mrs. W. L. Rippon and was much appreciated by the members.

A letter was received from the Dept. of Education announcing the name of Augustine Janotak as being the winner of the Women's Institute Gold Medal in Grade VIII.

The medal will be presented publicly in the near future.

A discussion took place on ways and means of raising money for the Swimming Pool fund, and it was finally decided to hold a "Community Concert" on the 2nd of December. Committees were formed to arrange details.

Professor Ottewell is expected to give a talk on his popular lectures given at the end of November.

The November meeting will be held at the home of Mrs. Andrew McLeod. This will also be the annual meeting and the election of officers will take place.

K. Pees. Make Merry.

The fortnightly social evenings arranged by the local Knights of Pythias, are proving to be one of the most pleasant events of this nature in Coleman. On Saturday evening the K. P. hall was well filled with local people and a number of out of town visitors, who enjoyed one of the finest programs ever offered locally.

Mr. W. N. Donaldson moved the contents of his tailor shop to B. C. B. on Monday. Mr. J. L. Lansbury assisting by taking an auto load to the B. C. C. town.

CARD OF THANKS.

I wish to thank all those who supported me at the recent election, for their expression of confidence and for the honor bestowed in electing me to represent this constituency in the Canadian House of Commons. G. G. COOTE.

Nanton, Alberta, Nov. 3rd, 1925

Mr. Walter Purvis entertained a few friends at cards in honor of his mother, Mrs. J. Johnson, in her home on Saturday last. The winners were Mrs. T. Muir first and Mr. J. Richards, second.

Mr. D. Gillespie was in the chair and saw to it that there was not a dull moment during the entire evening.

When the half way mark was reached on the program, Messrs. A. E. Knowles, Wm. Hillas, and J. Rushton, served real "home-made" hot dogs and coffee; which made a real hit with the boys.

The program rendered was as follows:—

Maple Leaf, company; chorus, company; song, J. Hopkins; chorus, company; song, L. Jones; chorus, company; comic song, W. Lane; chorus, company; song, H. Chamberlain; chorus, company; recitation, H. Snowdon; chorus, company; song, P. Smith; chorus, company; duet, Laue Bros.; song, W. Lewis; chorus, company; chorus, company; song, A. Phillips; chorus, company; comic song, J. Muir; chorus, company; violin solo, S. White; chorus, company; song, W. Williamson; chorus, company; duet, Messrs. Phillips and Smith; recitation, J. Woods; song, Mr. Atkinson; song, Mr. Fisher; God Save the King.

The King.

Local Option Votes

A total of twelve local option votes have now been held in the province, and of the twelve, four have been "wet" and balance of eight dry.

The largest "wet" vote was recorded in Sturgeon, where the vote was 401 for 487 against. The other localities to vote wet were Lacombe, by one vote, Langdon and Shepard, where the vote was 312 for and 322 against, and Chaton where the vote was 13 for and 14 against.

The communities voting dry were as follows: Bentley 74 to 23; Gladwin, 26 to 25; Cayley, 40 to 10; Parkland, 159 to 102; Irma, 55 to 11; Leslieville, 35 to 18; Fleet, 10 to 6; Kinseala, 148 to 95.

Lest We Forget

On Armistice Day, Wednesday, November 11th, at 10:30 a.m., a service of commemoration will be held at St. Albin's Church.

Veterans and other patriots are invited to attend. After the service in the church a visit will be paid to the graves of ex-soldiers. Rev. H. Laurence Noble, late of the 75th Battalion, C. E. F., will officiate.

The Red Cross

Child in the Home

Perhaps there is no greater proof of the value of the influence of Red Cross in the home, than the remarks of a mother whose child had recently joined the school branch. Her mother said: "It has entirely changed my little girl. She was a constant anxiety to me in the smaller matters of her personal hygiene." The care of hair, nails, teeth, etc., had been the subject of much nagging before I could get her to attend to them. Nowadays, she takes the greatest pride in herself, telling me that "A Red Cross child must be always spick and span and shiny." At her school they have musical drill and songs with actions which refer to the morning health habits. This instils these duties firmly into the children's minds, and in the case of my little girl, they have truly worked wonders.

Then, Johnnie, the young master of the house, who is only five and not yet at school, has made the acquaintance of the health fairies over the air, and is carrying out in his own small way, all the directions these fairy folk give under the guise of fairy tales. I assure you it is a great help to have a child ready to go to bed of his own accord at an early hour, because the Health Fairies has told him to do so. In our house, we are glad to have the influence of the Red Cross in the home; it has meant for our children, better health habits in their daily lives."

One of the chief reasons of a Peace-time Red Cross is the promotion of health publicly and privately by means of popularly written health literature, available free for distribution by the Alberta Division, by lectures on the Radio, by attractively featured health lesson in school branches. This program results in a better and higher standard of health in the home, and a finer quality of life and citizenship.

You are earnestly asked to support Red Cross by contributing to the Annual Appeal during the coming month.

For full information, please write to Alberta Division, Red Cross, Calgary.

A Budget of News Items From Bellevue

Bellevue Church of late has been the scene of a fine congregation, listening attentively to the striking and penetrating sermons of Rev. Oliver.

Many boys are this week being punished for Halloween. "Stomps" by those who had the power to avoid them.

Mr. Kenison of Coleman, was a visitor to Bellevue on Sunday.

"The Lost World" by Conon Doyle was shown to a packed house at the Bellevue picture show on Saturday. Mr. Cole must be complimented on the high standard of pictures he is showing at the present time.

You have been intending to try "Red Rose." Why not now before you forget.

RED ROSE TEA "is good tea"

The ORANGE PEKOE is extra good. Try it!

A Brighter Day For Europe

It is a long lane that has no turning. For seven long and difficult years Europe has been travelling a rocky road trying to find a way out of the mazes of hatred, bigotry, racial discord and suspicion, and the financial wreckage following the conclusion of the Great War. Conference has followed conference, commission after commission has struggled with the problems involved. The League of Nations has patiently sought to smooth away difficulties, remove misunderstandings and create a general feeling of confidence, the while supplying checks to unwise and aggressive action calculated to re-open old scores.

Slowly but surely progress was made notwithstanding the fact that the United States refused to join in the League or to participate in conferences and commissions except those which involved questions affecting payment of war debts, in which the United States is vitally interested. Had the United States, removed, as it is, from the local prejudice and jealousies of continental Europe, taken a disinterested part in helping to work out European problems, it is safe to say that greater progress would have been made, and the standing of the United States among the nations of the world would have been immeasurably higher today.

Great Britain, however, true to all her great traditions, and notwithstanding her own internal and serious domestic problems and crushing war debts, steadily planned and worked for the salvation of Europe. Possibly to a greater extent than ever before has Great Britain demonstrated her world leadership. This may not be admitted as yet, but future historians when they come to record the progress of world events and European reconstruction after the Great War can hardly fail to award credit to whom credit is due.

And at last the turning in the long lane would appear to have been reached in the conclusions unanimously arrived at by the conference recently concluded at Locarno, Switzerland, and effort to which will shortly be given by the signing of six new treaties, and one of which is a document by which Germany, France and Belgium agree to arbitrate all disputes among themselves with Great Britain and Italy as guarantors. In other words, should Germany break faith, both France and Italy are automatically arrayed with France and Belgium; should France or Belgium break the agreement, Great Britain and Italy will support Germany.

Unlike the old Triple Alliance between Germany, Austria-Hungary and Italy, or the alliance between France and Russia, or the Bonne Enfante between Great Britain and France, which were pledges to go to war in support of each other should certain contingencies arise, this new treaty is one guaranteeing peace and the prevention of war.

The credit for the Locarno conference belongs to the Foreign Service of Great Britain, Hon. Austen Chamberlain, who brought it about and presided over it. It was the driving genius which led to the final removal of all obstacles and brought about this happy culmination which, it is agreed by all, marks a new era in international affairs, ushering in an entirely new era in European politics.

One of the immediate results to follow from the Locarno conference and the drafting of these new treaties will be the early entry of Germany into full membership in the League of Nations. So long as the great central nation of Europe remained outside, the League could not possibly become the dominating factor in Europe and the world which its creator designed it to be. But with Germany in the League of Nations will become reality in an entirely new sense. Many of its greatest difficulties and most arduous problems will thereby be removed. It may even pave the way for a changed public opinion in the United States and the ultimate acceptance of the League Convention by Canada's next door neighbor, a consummation most devoutly to be wished.

Trouble in Far East

Chinese Crisis is Cause of Anxiety to Japanese Government

The London Daily Express comes promptly at Tokio says the Japanese Government is showing great anxiety over the outcome of the present Chinese crisis, owing to the possibility that it might eventually lead to another Russo-Japanese war.

Should General Wu Pei Fu and his allies drive Chiang Tso Lin from Manchuria, the dispatch says, Japan would be faced by the loss of her Manchurian concessions, for which she would fight rather than give up.

Shatters Medical Myth

Lord Dawson, personal physician to King George, shatters an old medical myth by prescribing for heart disease a quiet day in bed, followed by an evening at the theatre with an easy round of golf the following day. Heart muscles, he says, are better for exercise as well as rest.

COLOR IT NEW WITH

"DIAMOND-DYES"

Just Dip To Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, robes, skirts, stockings, sweaters, draperies, coverings, huggings—everything!

Buy Diamond-Dyes—no other kind—and try your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Hospitals Approved

American College of Physicians Set Seal of Approval on Saskatchewan Institutions

At the convention of members of the American College of Physicians and Surgeons in Philadelphia recently, the following Saskatchewan hospitals were approved, having complied with requirements for certain standards: One hundred, or more beds: Grey Nun's Hospital, Regina; Moose Jaw General Hospital, Moose Jaw; St. Paul's Hospital, Saskatoon; Saskatoon City Hospital, Saskatoon.

Fifty to 100 beds: Holy Family Hospital, Prince Albert; Hugh Wedderburn Memorial Hospital, Canora; Notre Dame Hospital, North Battleford; Providence Hospital, Moose Jaw; St. Elizabeth Hospital, Humboldt; Victoria Hospital, Prince Albert.

Nothing less than love could make a girl give up a good job for one that pays nothing.

Business Girls Like Cuticura

It is known the complexion of the skin is the mirror of health and beauty. The Soap, used daily, cleanses and purifies, while the Ointment soothes and heals. Cuticura Talcum is also used to keep the skin soft and smooth.

Sample Books Free by Mail. Address Canadian Soap Co., "The Old Standard," Prince, Ross & Co., Ltd., Montreal, Quebec.

"Cuticura Shaving Stick" \$2.50

When horses use Minard's Liniment

B.C. Apple Crop

Heavy Crop is Reported This Year in Southern British Columbia. Penticton, Naramata and Summerland are this year gathering the heavy crops of apples that the orchards have produced. The crop is of excellent quality and is being shipped expeditiously through the packing houses. One grower reported that he picked 51 boxes of McIntosh Red off one tree. Another said he gathered 64 boxes and still another picked 54 boxes.

Subdues Sore Throat

In a Short Time

When a severe cold grips you, when it makes you gag and cough, and the time you ought to be doing your housework, get this special liniment and apply it in penetrates to the very core of the affected throat. You get a truly wonderful effect from Nervilene, and for sore throats, tight throats, hoarseness, nothing else will act the same as Nervilene. Five times stronger than other liniments, full of pain-subduing power. Nervilene is a must in every home. Get a 5c bottle to-day.

May Improve Silk Industry

Report That Japanese Professor Has Perfected Two Inventions

Prof. Ryugo Inouye of the Scientific Bureau in Kyoto is reported to have perfected two inventions that are expected to greatly affect the silk industry. One of these is said to be a device to produce new silk from old rags and scraps, while the other is a simple method of obtaining silk direct from silkworms without waiting for the formation of the cocoons.

Her Nerves Were "All Broken Up"

She Could Not Sleep

Mr. David Gallagher, 37 Lyndale Ave., Hamilton, Ont., writes: "My nerves were all broken up and I could not sleep at night. I would get up out of bed and walk the floor for hours at a time.

After Using a Box of

I began to feel much better, and after using a few more boxes I could enjoy my rest as well as ever I could."

Mr. E. P. Ellis has been on the market for the past 22 years; your nearest druggist sells them; put up only by The T. Milburn Co., Limited, Toronto, Ont.

One-Dish Dinner

In many countries it is a problem to serve a single meal on one course. Here is a dish that will please a family of six, besides having the indispensable advantage of marshmallow:

cup souffle' custard
cup cook'd carrots (diced)
tablespoons grated onion
tablespoons chopped parsley
tablespoons chopped fresh red pepper
cup chopped ham
tablespoons buttered crumbs
cup Borden's St. Charles Milk
1 cup water
2 tablespoons butter
2 tablespoons flour
teaspoon salt
4 teaspoons baking-powder.

Cook carrots in boiling salted water 25 minutes. Make a white sauce of butter, flour, milk, water, salt, paprika. Spread layer of macaroni in well-greased baking pan. Cover with ham, carrots and seasonings. Repeat until all are used. Pour over the white sauce. Cover top with bread crumbs and bake in a moderate oven for 40 minutes.

In some sections of Kentucky a rifer who cannot hit a nail head at a distance of 120 feet is considered a poor shot.

Mothers can easily know when their children are troubled with worms and can lose less time in applying a reliable remedy—Mother Gracie's Worm Exterminator.

Things never are as bad as they seem. Think how many, many people never need a lawyer.

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Tablets of Aspirin, proved safe by millions and thousands of physicians over twenty-five years.

Golds Headaches Neuralgia
Neuritis Lumbago Rheumatism
Sciatica Hernia Neuralgia
Neuralgia Facial Paralysis

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists—also tablets boxes of 24 and 100.

Must Maintain Navy

If Great Britain were a continental power she could see her navy go with equanimity, but Great Britain is not independent alone. It is South Africa. It is Australia. It is Canada. It is the Pacific. It is the British Seas. Take the Union Jack from the flag of the British navy and it is goodbye to the Commonwealth. The British empire is the British fleet. If we are to preserve the one we must maintain the other.—London Daily Express.

Medical science is stressing more and more the prevention of disease as against the cure of disease. But in nearly every case the science of prevention is little more than the science of food.

What medicine needs is less serum chemistry and more food chemistry, less hokum and more common sense.—Vancouver Sun.

In Salvador, Central America,

oranges sell three for two cents.

Keep Minard's Liniment handy.

PAUL'S FAREWELL AT MILETUS

SUNDAY SCHOOL LESSON

NOVEMBER 8

SCOTT'S EMULSION OF PURE COD-LIVER OIL Rich in Vitamins Rebuilds Strength

Golden Text: Ye ought to help the weak, and to remember the words of the Lord Jesus, that He Himself said, it is more blessed to give than to receive. Acts 20:35.

Lesson: Acts 20:38.

Devotional Reading: Psalm 126:1-6.

The Text Explained and Illumined Paul had seen His Ministry at Ephesus, verse 21. See Text Historical Background. From Miletus Paul sent to Ephesus to ask the elders there if he might meet him in the church which he had founded. Paul had established the office of deacons and had ordained elders after the model of the Jewish synagogue. The elders were called by Paul "elder-sider"; and Paul calls these church officials sometimes elders and sometimes bishops, using the latter term when he means overseers, or superintendents, in churches where the Gentiles were large.

Usually birds avoid aeroplanes and the pilot was surprised to see the pigeons fly straight towards the machine and apparently pass through the rapidly revolving propeller of the starboard engine.

The aeroplane suffered no ill effects, but about 30 dead pigeons were picked up just outside the aerodrome.

A flock of pigeons recently flew into one of the propellers of a Hankey passenger aeroplane, which had just left Croydon Aerodrome on a flight to Paris.

TORIES TO HAVE LARGEST GROUP IN NEXT HOUSE

Quebec—Canada's general election ends with the Hon. Arthur Meighen, Conservative leader, as head of the largest group in the next House of Commons. The returns showed 115 Conservatives, 97 Liberals, 2 Progressive, 2 Independents, 2 Labour and 6 doubtful. Eight members of the cabinet went under. They were: Premier King; Hon. W. E. Foster, minister without portfolio; Hon. James Murdoch, minister of labor; Hon. G. M. Gordon, minister of immigration; Hon. G. P. Graham, minister of railways; Hon. Vincent Massey, member without portfolio; Hon. A. T. Low, minister of trade and commerce; Hon. J. B. Shearer, minister without portfolio.

in the Maritime Provinces and in Ontario, Conservatives gained heavily but the expected trend into the Liberal stronghold of Quebec—which Conservatives had counted—did not materialize. Hon. E. L. Patenaude, leader of the Independent-Conservative movement in that province, was himself defeated. Out of the 65 seats in Quebec, Conservatives only captured four, the Liberals holding 58 and two going to independent candidates. In the Maritime provinces four years ago, no Conservatives were returned. Manitoba has now elected 6 and Alberta 5. In the last named province Liberals made their greatest headway.

The next parliament will see the return of some once familiar figures. Hon. Robert Rogers, formerly minister of public works in the Conservative Government of Sir Robert Borden, will be back... Mr. Rogers defeated ex-Premier Norris of Manitoba. During his gaudy tour, Premier King announced his intention of taking Mr. Norris into his cabinet should he be elected. Sir George Steeple, also a former Conservative, made a high commissioner in London during the war, is back. He was the only Conservative elected in the province of Quebec outside the island of Montreal.

There were four women who stood for election, but Miss Agnes Macphail will again be the only woman member of Canada's Parliament.

New Viceroy Of India

Edward Frederick Lindley Wood
Succesor Earl of Reading
London.—Edward Frederick Lindley Wood, minister of agriculture and fisheries and former president of the board of education, is appointed viceroy of India, to succeed the Earl of Reading, who will retire.

Mr. Wood is heir to Viscount Halifax and is Conservative member of parliament for the Ripon division of West Riding, Yorkshire. He was also a member of Stanley Baldwin's first cabinet.

Removed To Leper Colony
Nanaimo, B.C.—Wong, a Chinese leper, discovered some days ago by provincial police on his vegetable farm near South Watington, was taken aboard a boat and removed to the leper colony at Lazarette, Beaufort Island. Wong's shack and all his personal belongings were burned, and his faithful dog, who was his lone companion, destroyed.

Established New Department
Regina.—A department of farm management has been opened at the University of Saskatchewan under Professor William Allen; the department will conduct an economic study of Saskatchewan farming in 1926, selecting the material in the field during the spring and summer months.

Ramrod Ancient Roadway
London.—The whole of Cornhill has just been closed for three weeks while an army of laborers, working day and night, remake the ancient roadway. Running through the heart of London, the ancient Roman road has from the days of the Romans been one of the main arteries of the city.

Ketchikan, Alaska.—When her engines failed the steamer, *Nebosha*, of the Alaska Steamship Company, ran aground a wharf of the Ketchikan Wharf Company here, while stopping for water. For 76 live reindeer the vessel was carrying.

Chicago, Ill.—Losses to railways caused by motor competition are permanent, and will be multiplied with the completion of road building programmes. W. D. Baldwin, president of the Missouri Pacific, testified before the Inter-state commerce commission.

W. N. U. 1601

New French Cabinet

Name of M. Caillaux Does Not Appear in the List

Paris.—Premier Poincaré has succeeded in completing a cabinet which is satisfactory to everybody. M. Poincaré has over the portfolio of minister of finance. Aristide Briand retains the post of foreign minister. Other portfolios were distributed as follows:

Minister of Justice—M. Chautemps, Minister of the interior—M. Schenck.

Minister of Works—M. De Monzie.

Minister of War—M. Daladier.

Minister of Marine—Emile Bordet.

Minister of Commerce—M. Chauvin.

Minister of Agriculture—Jean Durand.

Minister of Instruction—M. Delpon.

Minister of the Colonies—Paul Morel.

Minister of Labor—M. Thiriet.

Minister of Pensions—M. Anterou.

The under-secretaries are understood not to have been changed, and the new combination tends slightly more to the left than the former cabinet.

It is significant that the name of M. Caillaux, minister of justice in the cabinet just dissolved, and the man who precipitated the present crisis because of his proposals on debt adjustment and currency devaluation, does not appear in the new ministerial list.

Disastrous Blaze In New Brunswick Village

Fourth In Four Years To Damage Business Section

Petrolia, N.S.—Fire for the fourth time in the last four years swept through a portion of the business section of this village and caused damage estimated at more than \$40,000, in spite of efforts of the volunteer fire force with buckets and hand pumps.

The fire, the origin of which is unknown, burned to the ground five stores, two houses and searched many other buildings, including a hotel and two more stores.

The blaze raised the total of fire loss in the village to nearly half a million dollars in the last few years and each time it was the business section which was hit. Some of the structures burned have been built several times in a few years and were modern structures.

Challenges Court Jurisdiction

Col. Mitchell Says Court Martial Has No Authority to Try Cases

Washington.—After having secured the retirement of three members of the court martial chosen to try him, Col. William Mitchell challenged the jurisdiction of the court.

The colonel pleaded that the allegations against him did not constitute an offense falling properly under the articles of war, and that a court martial therefore was without authority to try the case.

Campaign Under Difficulties

Peking.—The advance of General Sun Chuan-Fang, the Chinkiang leader, toward Haichow, in Northern Kiangsu, continues slowly, owing to the lack of rolling stock. The concentration of Marshal Chang Tsao-Lin's followers there is equally slow. Serious fighting in that region is not expected to occur for at least another week.

U. S. Apple Crop

Washington.—The apple crop of the United States this year, will be forecast by the department of agriculture as 161,000,000 bushels, compared with 170,000,000 last year. In making the figure the department observes that the average person consumes half an apple a day.

Variable Weather in London

London.—Within ten minutes in one day recently the London hotel and shopping district experienced hail, sleet, rain, lightning and thunder—but no fog.

Many visitors here have been disappointed when informed that the real fog occurs only in winter.

U. S. Navy Celebrates

Washington.—The United States navy recently celebrated its 150th birthday with expressions of optimism and official assurances that the morale of the nation's first line of defence is still high, and that its leaders are looking toward the future, undismayed by past events.

Secures Largest Moose

Fredonia, N.Y.—E. C. Rogers, of Putnam, Conn., has secured the largest moose head taken out of New Brunswick forests during the 1925 hunting season. The antlers had a spread of 64 inches. Mr. Rogers obtained his trophy in the bald mountain district on the Miramichi.

Advocate Germicide Surgery

Use Ampic Justified Says American College of Surgeons

Philadelphia.—The American College of Surgeons, which may result in the abolition of the use of the knife in all minor and some major operations was started at the fifteenth annual congress of the American College of Surgeons.

The board of regents of the college decided to inaugurate at the centenary of the birth of Lord Liston, organizer of antisepsis and germicidal surgery, next April, a campaign of research and propaganda for the development and use of methods of those gericides which attack the diseased cells in the body, without destroying healthy tissue.

The board resolved that the use of such gericides instead of the knife had already been amply justified, and also that the profession should know more about the new technique.

If a man had an internal abscess, speakers said, the only treatment had been the knife. It was pointed out that a gericide had been discovered which would destroy the abscess cells and leave the living tissues unharmed.

MAY ESTABLISH A NEUTRAL ZONE IN THE BALKANS

Paris.—A neutral demilitarized zone between Greece and Bulgaria, with the object of conciliation for the adjustment of all local conflicts in the Balkans, may be one of the fruits of the settlement of the Balkan crisis provided by the council of the League of Nations.

Giving a spur to the Balkans' states' ambition to elaborate the security compact, the council will probably undertake to establish principles to guide the Balkan statesmen in handling any future difficulties, and will exert all possible influence to have the Locarno security agreement with Germany supplemented not only by a Balkan arrangement, but also by security pacts between other sections of Europe.

Thus will it hasten the convocation of a disarmament conference, while the Locarno protocol has as one of the hoped-for results of the achievement of security.

The Balkan crisis, which came at the archaeological moment in the new peace, will be given to European politics, but which takes on international significance, which controls overshadow the conflict between Greece and Bulgaria. Four great powers—France, Great Britain, Italy and Japan, and six lesser powers, representing both the European and American continents, which together make up the membership of the new peace, will be called in to help.

E. G. Booth, M.P.A., has been appointed superintendent of the plant which has a capacity of 250,000 bushels. W. E. Walker, B.S.A., will be the Dominion seed inspector at the plant.

M. P. Tufts, manager for the association, said the plant would also accept custom cleaning for farmers in the Moose Jaw district at a nominal fee.

Seed Cleaning Plant

Saskatchewan Registered Seed Growers Lease Plant to Moose Jaw

Regina.—Unanimous approval of the proposal made by the directors of the Saskatchewan Registered Seed Growers' Association to lease the Moose Jaw plant for a year with an option to purchase has been given by the shareholders voting.

The association will open the plant this week, when cars of wheat, oats, barley and flax will begin arriving at the plant to be cleaned and inspected for registration by the Canadian Seed Testing Bureau.

E. G. Booth, M.P.A., has been appointed superintendent of the plant which has a capacity of 250,000 bushels.

W. E. Walker, B.S.A., will be the Dominion seed inspector at the plant.

M. P. Tufts, manager for the association, said the plant would also accept custom cleaning for farmers in the Moose Jaw district at a nominal fee.

Completion Extension To Plant

Saskatoon.—While we would not care to commit ourselves to a definite statement [igh away, we would not have bought property to provide for an extension of the present plant had the extension not been contemplated," said Thomas Reynolds, local manager for the Quaker Oats Company, when questioned as to the possibility of an extension to the company's plant this year.

The leader of the plant was a Mohammedan chief named Hassan. El Kharatir who entered Damascas at the head of a mixed force of Mohammedans and Druse tribesmen. Hassan sent orders through the city inviting people to remain in their houses, and then attacked a police post in the neighborhood of the city.

Now he moved against posts in Madan-dar and Bah Tuna, the Christian quarter.

The French forces and their families withdrew to the Mezal and Bab-el-Sabah quarters in the north of the city, and opened a bombardment on the Chagour, Median and Bab-el-Sabah quarters, which are densely populated. Shells fell every three minutes, incendiary and high explosive. The bombardment lasted 48 hours.

"A delegation of notables approached General Guedim and appealed for an extension of the bombardment since the rebels had withdrawn to their own posts to await their reinforcements.

General Guedim agreed and ordered the bombardment continued a further six hours.

Accomplish Long Flight

Home.—The Japanese aviators, Abe and Kawachi, who recently completed a flight from Tokyo to London, have arrived here.

Diplomat Sails On "Empress of Canada"

Great Britain's minister to China, Sir Ronald Macleay and party photographed on board the Canadian Pacific S.S. Empress of Canada, prior to sailing from Vancouver for the Orient recently.

Mr. B. C. Newton, on the left, and Colonel the Hon. Sydney Peel, son of the late Viscount Peel, at one time speaker-in the House of Commons, will act as delegates with Sir Robert Peel at the forthcoming Chinese customs tariff conference, opening in Peking on October 26.

The ladies in the group are Lady Delta Peel, centre, and Lady Macleay on her left.

WHEAT POOL WOULD ACQUIRE MORE ELEVATORS

Region.—The following statement has been issued by officials of the Saskatchewan Wheat Pool:

"A step which it is expected will have-reaching consequences for the future of the association was taken by the delegates of the Saskatchewan Wheat Pool at their annual meeting held recently when they decided after a full hearing that authority be given to the board to enter into negotiations with the Saskatchewan Co-operative Elevator Company with a view to acquiring their elevator system at the earliest possible date.

"One of the objectives of the pool since the early stages of organization has been the acquiring of its own facilities for the purpose of handling in numbers' grain. The first step in this objective was taken at the extraordinary meeting of delegates at the end of January when the incorporation of the Saskatchewan Pool Corporation, Limited was confirmed, and the board of directors was instructed to acquire elevators at points in Saskatchewan not already served by the Farmers' Companies, where 10,000 or more wheat acres had been signed up under contract to the pool.

A further step was taken when it was decided that elevators should also be acquired at shipping stations served by the Farmers' Companies where the pool controlled 30,000 or more wheat acres. Under this policy 36 elevators have either been purchased or erected and are in operation for the 1925 crop."

May Be Message From Wrecked Coaster

Found in Bottles Off Wreck Island October 24

"A message—What may prove to be a message from men who died at sea nearly a year ago was picked up off Wreck Island, Graham Beach, October 24.

D. Cordillo, of Budeale, which is Graham Beach, found a bottle containing a message purporting to come from the lost coaster Hayport Number 2, which disappeared with all hands in Mill Bay Sound during the month of January 23, 1925.

The ship was bound northward with a cargo of explosives for one of the northern mines with four men on board, Captain Partridge, Mate Addison, Engineer Polley and a deck hand named Wood. She was last sighted in the storm heading to sea. Later, some wreckage was picked up, but no sign of the ship herself. And none of the bodies of those aboard were ever recovered.

Mr. Cordillo reported that the note reads: 'We are wrecked at Mill Bay Sound. No escape from drowning' (Signed) Steamer Hayport."

Toronto Honors

Robert J. Fleming

Street Traffic Suspended Two Minutes During Funeral Services

Toronto.—Toronto's street traffic seemed to stand still and many people stood in the snow and mud with bare and bowed heads when the funeral service of one of the city's favorite sons, Robert J. Fleming, street railway magnate, was held at the Timo-Eaton Memorial Church.

Seldon has the city of Toronto witnessed such general demonstration of mourning in connection with the death of one of its citizens.

From 12:30 to 2:30 o'clock the body lay in state at the church and hundreds of people paid their respects to the deceased.

The body was interred in Mount Pleasant cemetery.

Exploration of Fatal Rioting in Damascus

Alexandria, Egypt.—Reports that the fatal rioting in Damascus was caused by the action of the French in exhibiting bodies of rebels executed in the neighborhood of the city, is reiterated by refugees Syrians arriving here from Beirut.

The leader of the rebels was a Mohammedan chief named Hassan. El Kharatir who entered Damascas at the head of a mixed force of Mohammedans and Druse tribesmen. Hassan sent orders through the city inviting people to remain in their houses, and then attacked a police post in the neighborhood of the city.

Now he moved against posts in Madan-dar and Bah Tuna, the Christian quarter.

The French forces and their families withdrew to the Mezal and Bab-el-Sabah quarters in the north of the city, and opened a bombardment on the Chagour, Median and Bab-el-Sabah quarters, which are densely populated. Shells fell every three minutes, incendiary and high explosive. The bombardment lasted 48 hours.

A delegation of notables approached General Guedim and appealed for an extension of the bombardment since the rebels had withdrawn to their own posts to await their reinforcements.

General Guedim agreed and ordered the bombardment continued a further six hours.

Discover Deposit Of Potash Salts

Preflburg, Germany.—Deposits of potash salts of an exceptional quality are reported to have been struck at a depth of 800 yards at Buddingen potash works after three years of continuous borings. The concern, subsidized by the government of Baden, was established three years ago.

Thanks Women Will Lead

Philadelphia.—Dr. W. Blair Bell, Liverpool, England, speaking before the American College of Surgeons, sees in the rise of women in political and industrial spheres a commendable degeneration of the male sex.

Australia's Wheat Yield

Adelaide, Australia.—South Australia's wheat yield for the 1924-25 season is estimated at \$22,540,000 bushels, an average of 13.16 bushels an acre and an increase of two million bushels from the previous season.

HOME RULERS IN INDIA DRAFT A MAGNA CHARTA

Delhi, India.—A movement to form native states of India, which is likely to affect the whole trend towards self-government, will be held in Delhi shortly when a conference is to be held in Delhi under the presidency of N. C. Kelkar, a prominent leader of the Swarajists or Home Rulers.

Indefinite demands are being formulated in connection with the coming conference, it is understood, and it is said the demands will include the following:

Absolute supremacy of law and the judiciary to be independent of the executive; an elected representative assembly of which the legislature of each state is to be a part, and to which the executive of the government will be responsible and accountable; a system of autonomous local institutions; an executive council of which at least half the members will be elected by the representative assembly; full freedom of speech and criticism, subject only to the conditions imposed by ordinance or law.

These demands are described as a sort of Indian Magna Charta.

Manitoba Feeder Show

Entirely Approximately Double That of Last Year

Winnipeg.—With an entry list approximately double that of last year, the third annual Manitoba stocker and feeder show was opened here.

The Pelican Indian Agency at Brochet, Alta., captured first place in the three-year-old cattle class. Balovski and Finkelstein, of Rondeau, Alta., however, captured the bulk of the awards in this division, taking second, third, fourth and fifth. They also won second for the two-year-old group of five. James D. McGregor, of Brandon, Man., won in the yearling and calf class, while second place for yearlings went to the Lloydimeter Co-operative Association.

Newspaperman Elected

Regina.—C. H. McInnis, of North Battleford, the unsuccessful Liberal candidate, is the only newspaper editor elected from the west. He is the publisher of the "North Battleford News" and has served several terms as president of the Saskatchewan Press Association, and is the executive of the Canadian Weekly Newspaper Association since its formation.

A Turkish Phenomenon

Constantinople.—Devout and patriotic Turks are making pilgrimages to the home on the Bosphorus of a poor peasant couple, to whom has been born a son with a birth-mark on his right leg said to resemble Turkey's national emblem, the star and crescent. Believers say this is a certain sign of future greatness. The phenomenon has also excited the Turkish world.

Alberta By-Elections

Edmonton.—Six by-elections are to be held in Alberta about December 20, to fill vacancies in the provincial house caused by six members becoming candidates in the Dominion election. Announcement of the decision to hold by-elections rather than a general election, was made by Premier Greenfield last week.

Coal From Germany

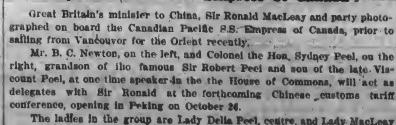

Portland, Maine.—A cargo of 4,000 tons of German coal, said to be the first to be imported into the country since the war, is due to arrive here in about five weeks. It was announced by local dealers, who are seeking to relieve the fuel shortage in Maine. The coal will come in three sizes, stone, coke and nut, and will be priced about the same as Welsh coal.

Discover Deposit Of Potash Salts

Preflburg, Germany.—Deposits of potash salts of an exceptional quality are reported to have been struck at a depth of 800 yards at Buddingen potash works after three years of continuous borings. The concern, subsidized by the government of Baden, was established three years ago.

Thanks Women Will Lead

Philadelphia.—Dr. W. Blair Bell, Liverpool, England, speaking before the American College of Surgeons, sees in the rise of women in political and industrial spheres a commendable degeneration of the male sex.

FRIDAY, NOVEMBER 5, 1925

THE POLITICAL QUANDARY

The Canadian political situation, following the election, is still one of uncertainty, and still hardly admits of anything but speculation.

As Ottawa dispatches indicate, Premier King may await assembling of Parliament before giving consideration to the matter of tendering his resignation, if he does take this matter into consideration at all. One thing stands out in the general situation that is not to be overlooked, and it he is this: That in the light of election returns, the people of Canada have not given a mandate for a higher tariff. Mr. Meighen, the Conservative leader, decreed in his campaign that the tariff was virtually the sole issue. On the face of the returns, the low tariff representation in the next House will be in the majority, that is, taking Liberal, Progressive and Labor forces combined. The Conservatives have not a clear majority over these low tariff parties and groups.

The possibility of another election within a few months or a year is discussed. This would be regrettable in a sense, yet it may be found necessary in order to clear the air, and in the interest of stable government. If Premier King assembles Parliament without tendering his resignation, the issue may be forced

early in the session. A high or low tariff vote would precipitate the issue.

While the Conservatives eclipse the Liberals in numerical strength, the latter have representatives from all provinces, and the Tories have not. Mr. Meighen is again without representation from Saskatchewan.

GIVE THE HOME MERCHANT FIRST CHANCE!

Sometimes it happens that the man who, in social life, would feel badly for having committed a social blunder against his business friend, feels little or no compunction in turning down the same man in a business deal even where no odds exist. Give the home merchant the first chance to bid for your purchases. A safe rule is, if the home merchant hasn't got it he will order it for you. Give him something to work for, and he will take pride not only in duplicating but in bettering the price of the foreign trader. Remember this: If you trade in the other fellow's home town, and the other fellow trades in his home town, after a while you won't have any home town.

It's hard to tell which is the greater calamity: the fellow that used to blow out the gas, or the fellow with a blow out and no gas.

Next to the head of a woman's club there's no one who gets his "name in the paper" as often as a guy named Hammermill Bond.

Who remembers when people were glad to stand on the running board just to get a ride in auto? Boy, these was the days!

The next boom will be in the Sierras, where real estate investors will get their just desserts.

An old volume has been dug up that says Adam died of the gout. What's this about an apple a day?

Breaking New Ground in the Rockies

(1) Surfers on the Glacier from a neighboring peak. (2) Paul McIntrye, 15-year-old son of J. B. McIntrye, of Providence, R. I., with his guide Chris Haenel, entering the newly discovered ice cave on the Illecillewaet Glacier at Glacier, B. C. (3) The summit of the Illecillewaet Glacier.

The fastnesses of the Rockies abound in virgin territory never touched by the foot of man. One of the latest to be added to the Illecillewaet Glacier, the photo above gives a good idea. It was found by Chris Haenel, the Swiss guide, and his son at Glacier, B. C., and the ascent to it was made in September. The 19-year-old Paul McIntrye, an annual visitor with his family to Glacier, the son of W. J. McIntrye of Calgary, Mt. Assiniboine, made the ascent the following day.

"It was a glorious day, Mount Sir Donald was crowned with a circular cloud like a halo; the vegetation was at its peak and the flowers were in full bloom. We were filled with delightful fragrance. After we had waded through massive timber we gradually entered into jackpine, brush, and on to the tongue of the Glacier. Here the snow was deep and the ice was thick, so we wended our way down the steep valley from this huge glacier. Our progress from this point was somewhat slow as our guides had to cut our trail, the first 1,400 feet being rocky and mountainous, crossed many small and miniature waterfalls from these above. As soon as we reached the ice we adjusted the crampons to them; these crampons are made of iron and are similar to a

Evolution of an orator: first he says a word; then he utters a few remarks; soon he gives little talks; in the course of time he makes speeches; before long he delivers addresses; next he propounds lectures; and finally he eloquently orates. By this time he is either in Chautauqua, in Parliament, or in the bus house.

Does the same thing that makes Great Britain great keep the United States united?

Wonder what kind of an Armistice Day celebration Greece and Bulgaria will put on this year?

The dangerous stage is when daughter is given a key to the front door.

Credit is as Credit Pays.

A record for October wedding was established at the Windsor Station, Montreal, early in that month, when twenty couples invaded the Concours on their way to Boston, Quebec, Ottawa and Toronto. Two of the bridegrooms were bounded following time-honored custom. It used to be the fashion to subject brides to this usage, but since the advent of short skirts the practice has been dropped upon.

Establishing what is easily a world record for movement of wheat, grain poured into Fort William and Port Arthur elevators at the rate of nearly thirty bushels a second for the whole of the 24 hours of October 5, from Canadian Pacific Railway cars. In all, 1,704 cars were unloaded during the day and each car carries an average load of 1,500 bushels, representing a total of 2,668,000 bushels.

Driving into stationary trains an level crossings seems to be a favorite sport on the part of a number of motorists, judging by reports coming in recently from different sections. The latest is from Galt, where an automobile, in broad daylight, ran into a freight train consisting of 18 loaded and 15 empty cars standing in plain view on a crossing. Fortunately no one was hurt, but the instance is another of gross carelessness on the part of motorists.

The Grand Challenge Cup, emblematic of the First Aid championship of the entire system of the Canadian Pacific Railway, was won by the Weston Shops team, of Winnipeg, champions of the West, against MacAdam, N.B., team, champions of the East and last year's winners, after a searching test of the two teams conducted at the Prince Edward, Mont. station. The margin between the two teams was so narrow as to be in doubt to the last moment. Weston took 587 points out of a possible 672 and MacAdam had 499.

Riding in Canadian Rockies: A Growing Summer Diversion

Albert H. MacCarthy, will return in time to report to the Alpine Club of Lake O'Hara, has been selected by Mr. John Sherrill, President and by Carl Rungius and Richard M. Kimble, the two latter are New York artists, to paint the artistic scenes that summerers at Banff, Lake O'Hara thrusters to rival Lake Louise whose close neighbor it is.

The Alpine Club's main objective this year is to climb Mt. Goodair, the highest peak visible from the Banff-Parkway, and the ascent will be made from a sub-camp.

Last year's initial Pow-Wow of the Trail Riders of the Canadian Rockies was held in John Valley near Field, B.C. Two days of trail riding and social gathering in a big lodge were attended by more than 200 members and novices, the latter qualifying for membership one of the requirements of which is to be a member of the Canadian Rockies' trail.

Dr. Charles D. Walcott of the Smithsonian Institution at Washington, D.C., is the honorary president of the Trail Riders' order.

The special expedition to climb Mt. Logan, the highest peak in the Canadian Rockies, headed by Capt.

expected to take part in this year's meeting, which will be held Aug. 10 and 11. The route will run from Banff and Lake Louise where the horses and guides will be in waiting to take the party up the trail. The program is as follows: first night, tent camp on Goodair Plateau, 6,000 feet above the valley floor; second night, camp on the shore of Lake O'Hara, rivalling Lake Louise in beauty, but of a wilder type; third night, Tid Camp beside the lake, with a night excursion in Sun Dance Lodge. There will be a singing each night in camp.

Riders will be required to sleep in sleeping bags or two warm blankets. A change of underwear and warm coat or parka will be all the equipment that is necessary. No grips will be accepted. One pack horse for each three riders. A word of caution: one is not permitted to go if he should not be able to get a saddle and pony, as, as far as possible, the pack animals will be used.

Several hundred trail riders are

Lake O'Hara will be the scene of three events this summer. The organizations that will meet in this old, romantic spot in the Canadian Rockies are the Alpine Club of British Columbia; Alpine Club of Canada's annual camp from July 10 to 14; and the Trail Riders of the Canadian Rockies on August 9th.

The special expedition to climb Mt. Logan, the highest peak in the Canadian Rockies, headed by Capt.

And We Run Across One Occasionally, Too!

An acquaintance met Horace Greeley one day and said: "Mr. Greeley, I've stopped your paper."

"Have you?" said the editor.

"Well, that's too bad!"

And he went his way. The next morning Mr. Greeley met his subscriber again and said, "I thought you had stopped the Tribune?"

"So I did."

"Then, there must be some mistake," said Mr. Greeley. "For I just came from the office and the presses were running, the clerks were as busy as ever, the compositors were hard at work, and the business was going the same as yesterday and the day before."

"Oh," ejaculated the subscriber, "I don't mean that I had stopped the paper; I stopped only my copy of it because I don't like your editorials."

"Pshaw!" retorted Mr. Greeley, "it wasn't worth while taking up my time to tell me such a trifles as that. My dear sir, if you expect to control the utterances of the Tribune by the purchase of one copy a day, or if you think to find a newspaper or magazine worth reading that will never express convictions at right angles with your own, you are doomed to disappointment."

FINE PRINTING

A Great Teacher

ADVERTISING conducts a public school. Its pupils are all the readers of the home paper--in short, the whole buying community.

ADVERTISING teaches that loyalty to the home merchant brings real returns in better service and better values. It's a lesson that requires the repetition afforded by the weekly arrival in the home of "The Journal."

You can teach the public to rely on your Advertisements as safe guards to economy and satisfaction in shopping. Moreover, people appreciate being asked for their patronage.

Progressive Merchants Advertise.

Read the Advertisements. Shop where you are invited to shop.

WORLD HAPPENINGS BRIEFLY TOLD

The largest map in the world is being made at San Francisco. It is to be 600 feet long and 18 feet wide.

The largest, carbon migration for twenty-five years was reported in the Copper River country, Alaska.

Britain's claim of 26 million pounds from Rumania on account of war debts has been scaled down to 10 million pounds.

The New York Times estimates the loss to the smelting industry and three railroads by the strike of the smelting miners, which began September 1, at \$165,000,000.

Manitoba's Government-owned telephone system is having a successful year. Total earnings for September were \$17,069.98, or nearly \$700 greater than August.

Foot and mouth disease among cattle is spreading in Lancashire, Eng., and two new outbreaks were reported recently. A large number of affected cattle have been destroyed.

The bylaw for the purchase of the Winnipeg Electric Railway for \$13,127,000 will not be submitted to the ratepayers at the civic election in November.

A public park is to be created by the territory of Hawaii at Keakala, on the Kona coast. The park will include the monument of Captain James Cook, famous English navigator and explorer, and the 5,632 square foot of British territory which surrounds it.

Thirteen years ago 125,000 tons of traffic passed by the "Phantom and Castle," London, every year. Today the amount has increased to 155,000 tons. Traffic at Hyde Park Corner has grown from 95,000 tons in 1912 to 140,000.

A Cairo despatch to the Daily Mail says it is officially announced that Tut-Ankh-Amen's tomb was re-opened Oct. 12 in the presence of Egyptian officials. The lid of the sarcophagus was lifted, revealing another sarcophagus upon which lay a thin linen cover and several bouquets of flowers in a good state of preservation.

Relics Of Ancient Mayas

Finds of Explorers Are Now in British Museum.

Relics of the ancient Maya civilization, to the number of about 200, which were unearthed recently by Mr. F. A. Mitchell Hedges, the explorer in the hitherto unknown interior of British Honduras, are now in the British Museum in London.

Most of them are fragmentary examples of pottery. Among them is a massive head of a smiling man which might have been modelled to-day, so strikingly "modern" is its spirit.

It appears from the character of his finds, however, that Mr. Mitchell Hedges may well succeed in bringing to light data about the Maya's lost civilization which may enable us at least to solve a great mystery, for the beginnings of the Maya are rooted in mystery.

Among the finds he has brought to England is a pottery dish which suggests that primitive man was not unknown to the Maya, and it is certain that they produced pottery with moulds that it does usually.

Factory Turns Out Speeches

Pennsylvania Firm Sold Three Million Last Year.

A writer in a United States paper has received a circular from a Pennsylvania factory for the manufacture and sale of after-dinner and other speeches. The circular reads that he had no idea of the magnitude of the industry. The management announces it sold three million speeches in 1924 and confidently expects to double the output in 1925. The thought is appealing.

We hear much of free speech, but the company claims to have sold these productions at prices ranging from 2½ cents to \$40 each. Blocks of five can be had for \$2, for ten for \$3, and twenty for \$5. As to their quality: "The figures do not indicate, the English speech is good and clear, the American more could be wanted." If it is not a speech is not desired choice may be had of three hundred "snappy" stories, as many "taunts" for all occasions, plus one hundred ideas for entertainment committees. Twenty-five short prayers can also be had for 50 cents, to relieve anyone embarrassed by the call to "ask a blessing." The longest folk song listed is "One hundred ways to introduce a speaker."

A Good Stay-

If the Turks who are trying to push John Bull out of Mosul were not "young" Turks, they would probably know better than they seem to know that John is the champion stiff-neck of the universe.—Boston Transcript.

Frailty Of Men Of Strength

It is Found That the Strongest Frequently Die At Early Ages. Twenty-five or thirty years ago Eugene Sandow was not only "the strongest man in the world," but he was unquestionably the fittest specimen of physical manhood of his day and generation. Every boy who looked upon him much-photographed development longed to be like him. Now, at the age of 55, he is dead; the effects of an automobile accident some years ago are said to have hastened his end.

One week ago Sigfried Breitbart, aged 35, was still a giant in the "World," who was touring Canada a few months ago, died quite suddenly. There was also John Marx, who was Sandow's immediate successor. He tore horses in two with his naked hands, smashed chains with a blow of his fist, stood on a high trestle and with a harness on his shoulders lifted an elephant off the ground. He died of consumption in his early forties.

The bulging muscle man is generally the object of envy and admiration by other men. The envy is sometimes unwarranted. The so-called strong man often is a fraud and if he is not he frequently becomes one because he neglects taking the care of himself that a less powerful man would do—Ex.

Phone Test Is Successful

Alberta Now Linked With United States and Eastern Canada.

Insuring a direct telephone service that will link Alberta with many points in Canada and with every state in the American Union, Lieutenant-Governor R. G. Brett, in the office of Mr. W. N. Howell, minister of railways and telephones, said: "In telephone communication with the states of the state of Montana, of Colorado and of Arizona, at the state capitals of Helena, Denver and Phoenix, exchanging greetings with the people across the line.

Promer Greenfield and other government officials were present during the test, which was a complete success as far as these three states were concerned. The test, as originally planned also includes direct connection with Oregon, and Vancouver, but owing to a short circuit six miles south of Wetaskiwin, caused when the wires became tangled with the telephone lines, the latter calls had to be postponed. /

Cold On Planet Mars

Scientist Believes That It Registers 100 Degrees Below Zero At Frequent Intervals.

Mars may or may not be inhabited, but if it is it is a life apparently enjoying a constant struggle against its own climate. With the use of an extraordinary delicate instrument he has invented for finding out such distant facts, W. V. Coblenz, of the bureau of standards, Washington, has concluded that the mean annual temperature of the surface of Mars is in the neighborhood of 20 degrees, Fahrenheit, comparing with the earth's 58 degrees.

The observations indicate that 100 degrees below zero can be encountered frequently on Mars.

Most of Dr. Coblenz' work on the problem was done last August, when Mars came much closer to the earth than it does usually.

Must Have Just Settlement

Force Will Never Settle Chinese Issue

Says N. W. Rowell

Addressing the Toronto Canadian Club at luncheon on the subject, "China and the Foreign Powers," Hon. N. W. Rowell, K.C., who has just returned from a tour of China, declared that force will not settle the issue between China and the powers.

A just settlement, he declared, while giving China autonomy in fixing its import tariffs and control over the trial of foreigners indicted for criminal offences, must at the same time protect foreign trade interests in the country.

The boycott in China against foreign, especially British goods, "has been practically 100 per cent. effective, with the result that British trade is at a standstill."

The First Potatoes

The potato plant is a native of Chile and Peru, South America. It is generally considered that potatoes were first brought to England from Santa Fe in tropical America, by Sir John Hawkins in 1565. Others ascribe their introduction to Sir Francis Drake in 1588. They are cultivated Ireland is referred to by Sir Walter Raleigh, who had large estates in County Cork.

Travel Note

The cable of an ocean liner, says an insurance authority, is the safest place in the world, and a Pullman berth is next. Stay home if you must, but remember, you do it at your own risk.—Spokane Spokesman-Review.

C. N. P. H. L. Notes

(Continued from page 1)

The Blairmore-Bellevue hockey clique are pulling all sorts of strings to entice Coleman into the C. N. P. H. L again this season, as these master minds realize that without Coleman the league would be in financial fizzle. This is a good time for Coleman to play safe until such time as the old C. N. P. H. L has been house cleaned.

Those C. N. P. H. L officials who were re-elected en bloc at Blairmore on Monday evening have the gall of a canal horse in again accepting office after the mess they made of hockey in the Crow last season.

A headline in the Herald reads: "Blairmore Hockey Club Wants Amateur Talent in Crow League." The Blairmore hockey officials, like Rip Van Winkle, must have been asleep for 20 years. There is no such thing nowadays as Senior Amateur Hockey Players. They have been extinct for years.

With all the old officials "re-elected" in the Crow Hockey Association should think twice before again going into a league that hand us such a raw deal last season.

The Blairmore-Bellevue hockey moguls who call the tune in the Crow League, say that they will allow Coleman and Lethbridge to strengthen up their teams a little by importing a few players. Isn't it kind of them to be so generous? As far as Coleman is concerned, the Journal is of the opinion that hockey supporters here are well able to decide whether we will play in a Crow League this season and also the personnel of the Coleman team.

"It is the general opinion around the town that the Kiks will back up the senior hockey club, and with in the same action practically assured in Lethbridge and Coleman there is no doubt that the Crow league is in for one of its most successful seasons."

The above paragraph appeared in the Herald in connection with the report of the annual meeting of the Blairmore hockey club. Just where the writer of the article in question got his information about Coleman Kicks taking over the \$550.00 indebtedness of the local club and running the team this year, would be interesting to learn. Probably Mr. W. H. Chappell of Blairmore will enlighten us.

New Lieutenant Governor

Alberta's new Lieutenant Governor is Dr. William Egbert of Calgary, whose appointment to the position was made the past week. The new governor took the oath of office on Thursday. Dr. Egbert succeeds Dr. Brett, who has been governor for the past ten years. He is a resident of Calgary of many years' standing.

Schools of Agriculture Open

The provincial schools of agriculture at Vermilion, Olds and Claresholm have opened for the 1925-26 term, with an attendance which will total upward of 350 when all students have arrived. The schools are anticipating the heaviest registration in their history. The parties of British boys who are to train here under the Headley scheme, have been distributed with 24 at Claresholm, 20 at Olds and 22 at Vermilion.

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unequalled quality, phone No. 18, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Lethbridge.

Budget of News

(Continued from page 1)

Mr. J. W. Curry of Bellevue, having obtained the agency for W. W. Grant's new radio set "Grant Superdyne" model, is now demonstrating every evening at his home. This set has many special features, one of them being the low price with which it can be obtained, including Aerial, Equipment and all that is necessary to listen in.

Short Cuts

Did you ever know a path across a field level to be straight when formed by the feet of wayfarers alone?

There is the opposite style which you seek, there is nothing to turn you to the right hand or to the left, but your own swerving fancy; and that makes the field-path crooked, variable.

It seems as if no one could walk straight alone, nor indeed correct himself, once for all, when wrong. The moment he becomes conscious of a deviation from the true track, he leaves it again in the other direction, therefore the fresh stamped path over the mould is never straight, but a calendar of successive mistakes.

There is an old saying "there is no royal road to learning," and that next reproof has been caught up by so many, that no doubt there is a great principle involved. The principle is, that money will not buy genius, or, genius cannot be gained in taking short cuts.

Delay does its heavier work; the last problem is understood and digested—we may now make a fresh start. If you force the journey, you will fail before the end. The river receives as much as it gives.

There are many false short cuts, but of them all protect us from the Gnat. It is sad to think how numerous they are.

Crams are the curse of education. If a book can be cut down to one fourth of its size without loss of influence, the residue is probably not worth the trouble bestowed upon it. Reading the analysis of a good book, instead of the book itself, is like swallowing a meal with our mastication. The facts are there inside you no doubt, but the genius of the interior can make nothing of them. They have come in too suddenly. They are dry, tasteless, and unmanageable.

But this is what the cram does. He puts a heavy load of dates conclusions, formulas, and likely facts into the pupils' head just where he thinks the examinees will dip in his net.

They no more belong to the pupil than the goods which are brought over-night to the station and are carried away next morning do to the railway porter. The pupil is no better than he. He is not so good—he is not so honest. The porter merely transfers the parcel from one man to another; the pupil is encouraged to put a new direction on the parcel and make the receiver believe that it came from him—that was his, thus he packed it full with his own honest produce, thus it is a sample of his own possessions.

In fact the Inter-sender a load of learning to the examinee, with instructions for the bearer to cheat the latter if he can. Of course the examinee can say nothing if the right answer is given to the question he puts, though he may feel sure that it no more comes from the examinee than a telegram does from the sparrow which sits upon the wire.

The reply passes under the little birds claw while his head has no conception of the reservoirs of intelligence and learning at either end of the wire on which he is perched. No man should think he is compelled, through want of years, to make any educational short cut. It is like learning to skate after you are grown up. You fall heavily, and likely enough make a fool of yourself before your intimate friends.

—•—
Swedish Delegation

One of the most interesting parties from abroad to visit the province this year came last week in the persons of the Swedish delegation to the international parliamentary conference held at Washington recently. The delegation visited Edmonton on Saturday last, and met officials of the provincial government and others. The delegation included David Bergstrom, former consul-general for Sweden in Canada, and also Swedish ambassador to Japan, who is a member of the senate of Sweden, and has been a member of one or other of the Swedish parliamentary assemblies for the past 25 years. Ivan Vennerstrom, M. P., was the other member of the delegation and H. E. Hallin of Stockholm accompanied them as secretary.

PERSONAL ITEMS

Mrs. Luke Lindoe will receive at her home in Coleman for the first time since her marriage on Thursday November 12th, from 3:30 to 6 p.m.

A meeting of all those interested in curling will be held in the council chamber on Tuesday evening, November 10th, at 7:30 p.m.

Winners of the K. P. whist drive held Monday evening were:—Mrs. J. Richards, 1st; Mrs. Barbour, 2nd; Mr. A. Brown, 3rd; Mr. Carroll, 2nd.

In the United Church on Sunday, Nov 15th, the Rev. Dr. Ferguson, Calgary, and the Rev. Capt. Bruce, of China, will speak on "The United Church—It's Function and Force in Our Dominion and in Other Lands."

Mrs. J. Richards entertained at her home on Tuesday last in honor of Mrs. J. Johnson. Singing and games were enjoyed. At 10:30 a dainty supper was served by the hostess, after which Mrs. Johnson was presented with a beautiful onyx ring from a few friends. The evening closed by singing "Auld Lang Syne."

As there is no religious instruction on the curriculum of the local schools, the priest-in-charge of St. Alban's Church is giving a series of instructions on the "Life of Christ" each Wednesday at 4:15 p.m. at the Parish Hall. These talks are illustrated with beautiful pictures from the Dept. of Extension, University of Alberta.

Tourist traffic development throughout Canada has reached such proportions as to equal the value of a fairly good wheat crop, and such development has only just begun, is the opinion of Colonel Phil Moore, of Yoho Valley, B.C., interviewed recently. He thought that an estimate of three hundred million dollars spent by tourists in Canada was not too high. In 1924, the tourist in the Canadian Rockies was very noticeable and although the majority of tourists there were Americans, yet Canadians, too, were beginning to discover them, said the Colonel.
